

RISK ASSESSMENT

Antingham Parish Council - SAM2

This risk assessment covers the charging, installation of movement of the SAM2 unit around the village

	Activity or hazard	Who is at risk	Control measures in place/or to be implemented	Completed
1	Installation, operation and dismantling of SAM2 unit around Antingham	Pedestrians, road users, Councillors and volunteers on the Highway verge	Ensure that the volunteers wear Hi-Viz jackets and that this operation is carried out during day light hours. There is to be no transferring of the unit under any circumstances after daylight hours.	
2	Charging of Unit/Fire	Risk within the volunteers home	Volunteer to monitor the unit and report back any issues.	
3	Transfer/Movement of unit	Transfer of unit from one pole to another within the village	Ensure that the volunteers are aware of manual handling procedures and that they ensure that they do not step too near the Highway or take any unnecessary risks. It may be necessary to extend a pole.	
4	Agreed locations	Councillors who transfer the unit between locations	Locations as agreed with NCC Highways at strategic points within the village centre.
